

DOING THE BEST I CAN

**I always have big goals,
Lots of things to do, lots of places to be
And I guess that is what makes me, well, *me!***

**Then I bite off more than I can chew,
It seems the “natural” thing to do
My colleagues then roll their eyes,
And it’s really no surprise,
They think that I’m neglecting,
The project I should be perfecting,
But let me tell you, it’s all finished—in my mind!**

**And I’m—
Doin’ the best I can,
You can ask my mother, I work harder than any other,
Check with my wife, I’ve been busy all my life,
And I’m doin’ the best I can**

**Doin’ the best I can,
If it’s not too confusin’, there is no refusin’
I’ll be on the committee, make the meeting in the city,
Walk your dog, feed your cat, and remember to put the
garbage in the back!**

**I equate my work with play,
All the gigs I do, all the friends I’ve made
And for that, there is nothing I would trade**

**But if there is something that you need,
Give me a moment, while I plant a seed
I’ve got the right solution-And with my resolution
We’ll get you up and running
With a little toil and cunning,
While *my* projects lay in shambles to the side!**

Chorus

***I'm not really sorry, I've nothing to hide
I love the things I'm doing, and I have a lot of pride,
I'm making big waves, and I think I've turned the tide,
Yet there's still some things that I have never tried!***

Cmin7

**I hope you understand---- (cmin7b5)
My life's not perfect, but it suits me fine
I'll take a break and have a glass of wine**

**So let me take a moment to reflect,
It's not a problem, just a small defect,
I've never been a quitter, I pick up all my litter,
I spread myself a bit too thin,
And proceed to do it all again,
I must admit I'm happiest that way**

Chorus
