

## The Rules of Earth or How to be a Good Roommate

Clean your room--Put it back where you found it  
Share the space--Replace what you use  
Repair the damage--Make it look nice  
Don't make me tell you--To do it twice!

Don't you think our air--should be fresh and breathable?  
And don't you think our food should be perfectly eatable?

*Uh, edible.....*

Keep our water clean, don't use bad chemicals  
And pick up after yourself

**The Earth is our family--We can't disown  
As much as we'd like-- to be on our own  
It all seems so simple, and yet we're unaware  
That the world is in order, and with just a little care**

Now that we know, exactly what we know  
We gotta spread the word, and let the garden grow  
Some of you say, "it's all so mysterious"  
Well, I say to you, go grow some wysterious!

*Is that a plant?*

Don't act-- like it's hard to do  
It's really-- a simple fact  
If you want what you want & need what you need  
Use it, --and give it back!

**As a frog once said, it's not easy being green  
It takes some respect and work to keep the earth clean**

Tidy up-- what we've undone,  
until it shines-- under the sun  
And now that we know the rules  
Let's dig in, with the right tools
